

World Environment Day

THE OBEROI RAJVILAS

At The Oberoi Rajvilas, World Environment Day was marked by elegance, innovation, and a shared sense of purpose. Embracing the global theme “*Putting an End to Plastic Pollution*,” our team curated a thoughtful and visually striking experience that blended creativity with conscience.

From artistic installations crafted using repurposed plastic to interactive QR code displays, every element reflected our commitment to sustainability and story-telling. The celebration was not merely an observance, but a call to action — one that ignited awareness and inspired collective responsibility.

In true Oberoi style, we transformed a message into a movement — gracefully, meaningfully, and memorably.
