Celebrating World Environment Day

Each World Environment Day is organized around a theme that focuses attention on a particularly pressing environmental concern.

The theme for 2017 is connecting people to nature

Date : 05th June 2017

8 Ways to Protect our Environment

1. **Use compact fluorescent light bulbs:** It is true that these bulbs are more expensive, but they last much longer and they can save energy and in the long term your electricity bill would be reduced.
2. **Donate:** You have tons of clothes or things you want to get rid of. If they are still usable, give them to someone who needs them.
3. **Turn off your devices:** When you do not use a house device, turn it off. For example, if you don't watch TV, turn it off.
4. **Protect Trees:** Do not cut trees and plant more trees.
5. **Walk or cycle:** Driving is one of the biggest causes of pollution. If you want to use your car, ask yourself the following question: do I really need my car? Walk or use your bike if the journey is a short one.
6. **Detergent:** Follow the recommended dose of detergent to wash your clothes or dishes.
7. **Leaky faucets:** Watch leaky faucets, which can cause a significant increase in the water bill. An average of 120 liters of water can be wasted due to a dripping faucet.
8. **Rainwater:** Think of recovering rainwater. This water can be used for different purposes

Educating the Young generation on the importance of Environment by the Unit General Manager and presentation by F&B Service Manager

Children from “Don Bosco Snehalay” for the underprivileged and employees were invited.

Making learning about environment fun “Drawing Competition”

Green Walk

Visit to Rain Water Harvesting Pit ,
STP Plant and the Garden by Chief
Engineer to explain the importance and
goodness of
conserving our resources

Plantation Drive

Plantation by Unit General
Manager & Kids

Refreshments & Gifts for the Kids

Sharing the awareness with all who we connect with

Green Vehicle Drive
