

IHCL

World Environment Day and Sustainability Month 2026

World Environment Day 2026

World Environment Day is significant for IHCL—but our commitment goes beyond one day.

Through **Tata Sustainability Month in June**, we activate a full month of action, bringing **Paathya** to life across employees, partners, and guests—shifting focus from awareness to **measurable, collective environmental impact rooted in responsible hospitality**.

Some Initiatives for our key stakeholders:

- E-waste Drive for **Our Employees**
- Sustainable cocktail menus for **Our Guests**
- Sustainability focussed vendor meets for **Our Partners**

E-waste Recycling Drive

A structured, pan-India e-waste collection drive to responsibly dispose of old electronics (phones, laptops, chargers, etc.) through authorized recyclers. **Launched on World Environment Day**

Impact of the initiative:

- Reduction in landfill waste and harmful toxins
- Promotion of circular economy practices within workforce
- Increased employee awareness on responsible consumption and disposal
- A sustainable volunteering initiative for employees

IHCL

CHECK OUT YOUR OLD GADGETS

Your old and overused gadgets can still make a positive impact when recycled correctly.

Participate in the E-waste drive this **TATA Sustainability Month.**

RESPONSIBLE DISPOSAL STARTS HERE.
Contact HR to donate.

HELP RECYCLE E-WASTE

Other Volunteering Initiatives

At IHCL we have various volunteering initiatives running through out the year. For June, some of the sustainability focussed activities organised are:

- Sapling plantation drive
- Beach Clean ups
- Creating bird nests
- Cleaning drives
- Recycling drives
- Waste segregation activities

Plantation drive and interactive awareness session for school students organised by Taj Agra

Beach clean-up, Mumbai

Awareness Drive at Government School, Agra

Cleanliness Drive, Dubai

Please note: Since this is a month-long initiative, we will have more photos and initiatives by the end June.

In the Spirit of Sustainability

“In the Spirit of Sustainability” reimagines mixology as a mindful craft—where every ingredient, process, and presentation reflect respect for the planet, local communities, and heritage. This cocktail menu celebrates India’s rich biodiversity and traditional wisdom, transforming locally sourced, seasonal, and often overlooked ingredients into refined, contemporary drinking experiences.

This menu is not just about cocktails—it is about **redefining indulgence through purpose** and offering sustainable choices.

Paathya Centric Vendor Meets

To Engage IHCL's vendor ecosystem through curated sessions anchored around Paathya, focusing on responsible sourcing, renewable energy, waste reduction, holistic wellness and ESG alignment. These meets will be held **across the country through the month of June.**

Impact of the initiative:

- Strengthened alignment of supply chain with IHCL ESG goals
- Enablement of vendors to adopt sustainable practices
- Long-term reduction in Scope 3 environmental footprint

Thank You
