

ENVIRONMENT WEEK CELEBRATIONS AT THE PARK NEW DELHI

The Park Hotels join the worldwide campaign to eliminate plastic drinking straws from our landfills, our streams, our oceans, and our beaches. We pledge to give up the use of plastic straws and start the process of replacing these with paper straws on **World Environment Day - 5 June, 2018**.

Our bars and restaurants, to be part of the movement to eliminate plastic pollution from the source. We realize that the little things we do have a big effect on the natural world around us. By simply providing straws on request or stating this in our menus "*Straws available upon request*", can be part of the solution. This way we can significantly reduce the disposal of single use plastic. Such a simple action will not only save on overheads, it will have incredibly positive and far reaching effects on our planet.

So let's skip the straws and beat the plastic pollution! **If we don't act now, by 2050 plastic in our ocean will weigh more than fish.**

WORLD ENVIRONMENT DAY

POSTERS

7 SINGLE-USE SWAPS

AND THE TRASH YOU CAN SAVE IN ONE YEAR

4.4 lbs of trash per day x 324 mil people in the US = 700,000 tons of trash made every day in the US

"THE PEOPLE WHO MAKE THE BIGGEST DIFFERENCE ARE THE ONES WHO DO THE LITTLE THINGS CONSISTENTLY."

How Long Does it Last?

Have you ever thought of how long it takes for your trash to decompose? Minimize your trash and recycle.

Different materials decompose at different rates. How long does it take for these common types of trash to break down?

APR is Impact Experiment.

PLASTIC RECYCLING FACTS

Almost 50% of all households have access to a plastic pot, tub and tray kerbside collection scheme

20,000 two litre drinks bottles or 120,000 carrier bags weighs 1 tonne

Recycled plastic bottle can enjoy a new life as park benches, seating or tables

It takes 75% less energy to make a plastic bottle from recycled plastic compared with using 'virgin' materials
