

**WORLD ENVIRONMENT
DAY 5TH JUNE 2019**

In order to support this year's World Environment Day theme '**Beat Air Pollution**', The Leela Mumbai presented guests with saplings of 'Dwarf Ixora' to effectively combat air pollution and make the Earth a greener place.

To promote this thought amongst the employees as well,
The Leela Mumbai presented them with Dwarf Ixora
plants in their bid to making the planet a greener and
cleaner place.

With around 11 acres of lush landscaped gardens, it takes a team of dedicated professionals with a deep commitment towards conserving nature to help us keep our environment green. Like each year, The Leela Mumbai saluted its Horticulture Team.

THANK YOU
